

2019 LEGISLATIVE POLICY

MSCPA's Legislative Mission: Protecting the profession while fostering a strong business climate and seeking to create the best possible regulatory environment for our members and the people we serve.

How we do this:

1. Research issues to provide technical information and analysis to decision makers
2. Analyze proposed legislation and administrative rules to determine possible impacts then agree to support, oppose, monitor, or improve
3. Initiate legislation when issues are identified, but either no legislation exists or alternative legislation is deemed beneficial
4. Create resources and testimony to support our position
5. Communicate the CPA profession's position and reasoning to decision makers

Approved by the MSCPA Board of Directors August 15, 2018.
